Map of the competition site:

GPS coordinates : 49.33993 N, 21.14800E

MOTORS: The organizer will provide engines from two manufacturers: Ultra Energy Link and Jambol Jet. The type of available engines and specifications can be viewed on the website: www.spacemodeling.rs. Each competitor will indicate the required type and quantity of engines when registering for the competition. The engine order must be paid for at registration. The deadline for ordering engines is the same as at registration - June 16, 2025. Only for the S7 class: It is possible to bring engines from certified manufacturers Estes, Aerotech, TSP and Klima. The engines should be in their original packaging with the appropriate certificate confirming the type and characteristics of the engine. At the team registration desk, the engines should be handed over to the organizers for safe storage until the morning of the S7 competition.

At the competition, the following motor manufacturers will be used: Jambol Jet (Bulgaria) and Ultra Energy Link (Serbia).

The available motor types with specifications of each motor type and the corresponding price lists can be found on the manufacturer's websites can be found at the following link:

<https://www.spacemodeling.rs/downloads/motor-specifications-jambol-jet.pdf>

<https://www.spacemodeling.rs/downloads/motor-specifications-ultra-energy-link.pdf>

The provisional deadline for entries is 16 June 2025.

Engines must be in a factory-sealed package with the relevant certificate confirming the type and characteristics of the engine.

Engines for the S7 category must be presented to the organizers in a marked package (with FAI number and name) at registration so that they are safely stored in the box for the given category. The engines will be issued before the start of the first round.
